The Diamond Standard For Steel Processing

Bue-Tech	• For both the acid and rinse section • Entry / economy grade
Cal-Tech	• For both the acid and rinse section • mid grade - the industry standard
Ex-Tech	• For both the acid and rinse section • Premium grade - extends roll life over traditional compounds
Ex-Tech"K"	• For both the acid and rinse section • Premium plus • A step above our regular Ex-Tech
Hex-Tech	• Excellent heat and chemical stability
Syn-Tech	• For both the acid and rinse section • For increased chemical resistance • Exceptional in alkaline applications
Max-Tech	• For both the acid and rinse section • When heat and chemical are an issue
Vee-Tech	• For extreme heat application
MES60/95	• Premium polyurethane for non-acid applications • Pickle line entry and exit positions, slitters, cut to length lines
Met95	• Developed by Brant for maximum rinse roll life
