

**Tarsco** Bolted Tank®  
a TF Warren Company

Full service provider of liquid and dry bolted storage tank systems

## FIRE PROTECTION BOLTED STORAGE TANKS

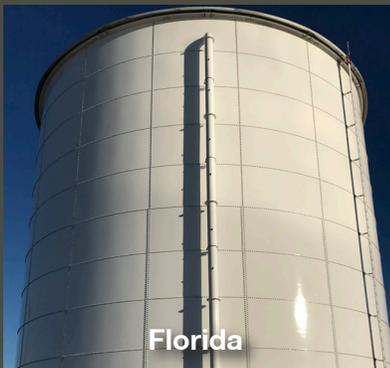

Bringing Experience, Safety, and Customer Service to each Project

Colorado

California

Florida

Through decades of experience in fire protection tank construction, we've learned that quality and value aren't negotiable. That's why thousands of companies worldwide rely on us for their water storage solutions. We are committed to providing superior quality, on time defect-free products with unparalleled customer service in a safe manner while manufacturing products that meet and exceed our customer's requirements and expectations.

**Tarsco Bolted Tank** provides engineering, design, manufacturing, and construction of customized, above-ground epoxy coated bolted tank storage systems. We follow established business practices by adhering to regulatory standards and codes including:

- AWWA D103** Standard for Factory-Coated Bolted Steel Tanks
- NFPA-22** Code for Water Tanks for Private Fire Protection
- FM** Factory Mutual Certified

Our lengthy construction experience, combined with our state-of-the-art laser fabrication and industry leading coating system, are your most cost-effective solution for any volume of water storage you require. **Tarsco Bolted Tank** works with clients on a global scale to provide a high quality and complete solution to your fire protection needs. For all of these reasons and with our exceptional safety record, the best choice for your fire protection water storage tank is with Tarsco Bolted Tank.
